The Fund

INVESTMENT APPROACH

The fund, an international small-cap fund, seeks capital appreciation. To pursue this goal, the fund primarily invests in the equity securities of foreign small-cap companies. These companies may be based in both developed and emerging economies. At least 65% of the fund's total assets normally will be invested in foreign securities from a minimum of three countries. The fund may invest in larger foreign companies or in U.S.-based companies if they represent better prospects for capital appreciation.

Founders Asset Management LLC ("Founders") manages the fund using a "growth style" of investing. Founders uses a consistent, "bottom-up" approach to build equity portfolios, searching one by one for companies whose fundamental strengths suggest the potential to provide superior earnings growth over time.

Key concepts

The fund offers multiple classes of shares. This prospectus describes shares of Classes A, B, C, R and T. The fund's other class of shares, Class F, is offered by a separate prospectus and is generally available only to shareholders who have continuously maintained an account with any Dreyfus Founders fund since December 30, 1999. All share classes of the fund invest in the same underlying portfolio of securities and have the same management team. However, because of different charges, fees and expenses, the performance of the fund's share classes will vary.

Information on the fund's recent strategies and holdings can be found in the current annual/semiannual report. See back cover.

MAIN RISKS

The primary risks of investing in this fund are:

- **Foreign investment risk.** Investments in foreign securities involve different risks than U.S. investments. These risks include:
 - **Market risk.** Foreign markets have substantially less volume than U.S. markets, and are not generally as liquid as, and may be more volatile than, those in the United States. Brokerage commissions and other transaction costs are generally higher than in the United States, and settlement periods are longer.
 - **Regulatory risk.** There may be less governmental supervision of foreign stock exchanges, securities brokers and issuers of securities, and less public information about foreign companies. Also, accounting, auditing and financial reporting standards are less uniform than in the United States. Exchange control regulations or currency restrictions could prevent cash from being brought back to the United States. The fund may be subject to withholding taxes and could experience difficulties in pursuing legal remedies and collecting judgments.
 - **Currency risk.** The fund's assets are invested primarily in foreign securities. Since substantially all of its revenue is received in foreign currencies, the fund's net asset value will be affected by changes in currency exchange rates to a greater extent than funds investing primarily in domestic securities. The fund pays dividends in U.S. dollars and incurs currency conversion costs.
 - **Political risk.** Foreign investments may be subject to expropriation or confiscatory taxation; limitations on the removal of funds or other assets of the fund; and political, economic or social instability.
- **Small company risk.** While small companies may offer greater opportunity for capital appreciation than larger and more established companies, they also involve substantially greater risks of loss and price fluctuations. Small companies may be in the early stages of development; may have limited product lines, markets or financial resources; and may lack management depth. These companies may be more affected by intense competition from larger companies, and the trading markets for their

securities may be less liquid and more volatile than securities of larger companies. This means that the fund could have greater difficulty selling a security of a small-cap issuer at an acceptable price, especially in periods of market volatility. Also, it may take a substantial period of time before the fund realizes a gain on an investment in a small-cap company, if it realizes any gain at all.

- **Sector risk.** Securities of companies within specific sectors of the economy can perform differently from the overall market. The technology sector's performance in recent years is an example. Certain sectors may perform differently from the broader market due to changes in such things as the regulatory or competitive environment or to changes in investor perceptions regarding a sector. Because the fund may own more securities in certain industry sectors than others, the fund's performance may be more susceptible to any developments which affect those sectors emphasized by the fund.
- **Initial public offerings.** The fund invests in initial public offerings ("IPOs"). Part of the fund's historical performance is due to the fund's purchase of securities sold in IPOs. The effect of IPOs on the fund's performance depends on a variety of factors, including the number of IPOs in which the fund invests, whether and to what extent a security purchased in an IPO appreciates in value, and the asset base of the fund. There is no guarantee that the fund's investments in IPOs, if any, will continue to have a similar impact on the fund's performance.

Key concepts

Growth stock: stock of a corporation that has exhibited faster-than-average gains in earnings over the last few years and is expected to continue to show high levels of profit growth.

Foreign small-cap companies: generally, those foreign companies with market capitalizations of less than \$1.5 billion. This range may fluctuate depending on changes in the value of the stock market as a whole.

PAST PERFORMANCE

The following information provides an indication of the risks of investing in the fund. The first table shows the fund's Class A performance for its first full year of operations. The performance figures do not reflect sales loads, and would be lower if they did. As Classes A, B, C, R and T have only one year of operations, year-by-year performance for the fund's Class F shares, which are not offered by this prospectus, is provided in the second table. Performance for Class A, B, C, R and T shares would have varied from, and may have been lower than, the performance of Class F shares due to differences in sales charges and expenses. All performance figures reflect the reinvestment of dividends and capital gain distributions. Past performance is no guarantee of future results.

The following information compares the performance of each share class to a broad measure of international market performance and to an international small company index. These returns include applicable sales loads. Class F performance results have been adjusted to include the maximum sales load that would have been payable had a sales load been imposed. Class F shares are not offered by this prospectus. All performance figures reflect the reinvestment of dividends and capital gain distributions. Past performance is no guarantee of future results.

What this fund is – and isn't

This fund is a mutual fund: a pooled investment that is professionally managed and gives you the opportunity to participate in financial markets. It strives to reach its stated goal, although as with all mutual funds, it cannot offer guaranteed results.

An investment in this fund is not a bank deposit. It is not insured or guaranteed by the FDIC or any other government agency. It is not a complete investment program. You could lose money in this fund, but you also have the potential to make money.

EXPENSES

As an investor, you pay certain fees and expenses in connection with the fund, which are described in the table below.

Fee table	Class A	Class B	Class C	Class R	Class T
Shareholder transaction fees (<i>fees paid from your account</i>)					
Maximum front-end sales charge on purchases as a % of offering price	5.75	none	none	none	4.50
Maximum contingent deferred sales charge (CDSC) as a % of purchase or sale price, whichever is less	none ¹	4.00	1.00	none	none ¹
Maximum sales charge on reinvested dividends/distributions	none	none	none	none	none
Annual fund operating expenses (<i>expenses paid from fund assets</i>) % of average daily net assets

Other expenses ²	0.44	0.46	0.46	0.41	0.45
Total annual fund operating expenses³	1.61	2.38	2.38	1.33	1.87

¹ Shares bought without an initial sales charge as part of an investment of \$1 million or more may be charged a CDSC of 1.00% if redeemed within one year.

² These expenses include custodian, transfer agency and accounting agent fees, and other customary fund expenses.

³ Fund expenses were reduced by expense offsets from credits earned on uninvested cash held overnight at the custodian. After applying these credits, total annual fund operating expenses were: Class A — 1.59%, Class B — 2.35%, Class C — 2.35%, Class R — 1.31% and Class T — 1.84%. The custody agreement pursuant to which these credits were made available may be terminated by the fund or the custodian on 90 days' notice.

Expense example	1 Year	3 Years	5 Years	10 Years
Class A	\$729	\$1,054	\$1,401	\$2,376
Class B				
with redemption	\$641	\$1,042	\$1,470	\$2,716*
without redemption	\$241	\$742	\$1,270	\$2,716*
Class C				
with redemption	\$341	\$742	\$1,270	\$2,716
without redemption	\$241	\$742	\$1,270	\$2,716
Class R	\$135	\$421	\$729	\$1,601
Class T	\$631	\$1,011	\$1,415	\$2,542

* Assumes conversion of Class B to Class A at end of the sixth year following the date of purchase.

This example shows what you could pay in expenses over time. It uses the same hypothetical conditions other funds use in their prospectuses: \$10,000 initial investment, 5% total return each year and no changes in expenses. Because actual returns and expenses will be different, the example is for comparison only.

Key concepts

Management fee: a fee paid to Founders for managing the fund's portfolio.

Rule 12b-1 fee: the fee paid to finance the sale and distribution of Class B, C and T shares. Because this fee is paid out of the fund's assets on an ongoing basis, over time it will increase the cost of your investment and may cost you more than paying other types of sales charges.

Shareholder services fee: the fee paid to the fund's distributor for providing shareholder services to the holders of Class A, B, C and T shares.

Contingent deferred sales charge (CDSC): a back-end sales charge payable if shares are redeemed within a certain time period.

MORE ABOUT INVESTMENT OBJECTIVE, STRATEGIES AND RISKS

This section discusses other investment strategies used by the fund and provides in more detail the risks associated with those strategies. The Statement of Additional Information contains more detailed information about the fund's investment policies and risks.

Other portfolio investments and strategies

Securities that are not readily marketable. The fund may invest up to 15% of its net assets in securities that are not "readily marketable." A security is not readily marketable if it cannot be sold within seven days in the ordinary course of business for approximately the amount it is valued. For example, some securities are not registered under U.S. securities laws and cannot be sold to the U.S. public because of Securities and Exchange Commission regulations (these are known as "restricted securities"). Under procedures adopted by the fund's board, certain restricted securities may be deemed liquid, and will not be counted toward this 15% limit.

Investments in illiquid securities, which may include restricted securities, involve certain risks to the extent that a fund may be unable to sell an illiquid security or sell at a reasonable price. In addition, in order to sell a restricted security, a fund might have to bear the expense and incur the delays associated with registering the shares with the SEC.

Temporary defensive investments. In times of unstable or adverse market or economic conditions, up to 100% of the fund's assets can be invested in temporary defensive instruments in an effort to enhance liquidity or preserve capital. Temporary defensive investments generally include cash, cash equivalents such as commercial paper, money market instruments, short-term debt securities, U.S. government securities, or repurchase agreements. The fund also could hold these types of securities pending the investment of proceeds from the sale of fund shares or portfolio securities, or to meet anticipated redemptions of fund shares. To the extent the fund invests defensively in these securities, it might not achieve its investment objective.

Portfolio turnover. The fund does not have any limitations regarding portfolio turnover. The fund may engage in short-term trading to try to achieve its objective and may have portfolio turnover rates in excess of 100%. A portfolio turnover rate of 100% is equivalent to the fund buying and selling all of the securities in its portfolio once during the course of a year. The portfolio turnover rate of the fund may be higher than some other mutual funds with the same investment objective. Higher portfolio turnover rates increase the brokerage costs the fund pays and may adversely affect its performance.

If the fund realizes capital gains when it sells portfolio investments, it generally must pay those gains out to shareholders, increasing their taxable distributions. This may adversely affect the after-tax performance of the fund for shareholders with taxable accounts. The fund's portfolio turnover rate for 2000 is included in the "Financial Highlights" section of this prospectus. The fund's current and future portfolio turnover rates may differ significantly from its historical portfolio turnover rates. Specifically, the fund's portfolio turnover rates for 1999 and future years are expected to continue to be significantly higher than the fund's pre-1999 portfolio turnover rates due to the portfolio manager's investment style.

More about risk

Like all investments in securities, you risk losing money by investing in the fund. The fund's investments are subject to changes in their value from a number of factors.

- **Emerging markets risk.** The fund invests in emerging markets. These are markets in countries that are considered to be in the initial stages of the industrial cycle. Such countries are subject to more economic, political, and business risk than major industrialized nations, and the securities issued by companies located there may have more volatile share prices and be less liquid than those of securities issued by companies in later stages of the industrial cycle.
- **Additional foreign risk.** Some foreign companies may exclude U.S. investors, such as the fund, from participating in beneficial corporate actions, such as rights offerings. As a result, the fund may not realize the same value from a foreign investment as a shareholder residing in that country.
- **Stock market risk.** The value of the stocks and other securities owned by the fund will fluctuate depending on the performance of the companies that issued them, general market and economic conditions, and investor confidence.
- **Company risk.** The stocks in the fund's portfolio may not perform as expected. Factors that can negatively affect a particular stock's price include poor earnings reports by the issuer, loss of major customers or management team members, major litigation against the issuer, or changes in government regulations affecting the issuer or its industry.
- **Opportunity risk.** There is the risk of missing out on an investment opportunity because the assets necessary to take advantage of the opportunity are held in other investments.
- **Investment style risk.** Market performance tends to be cyclical, and during various cycles, certain investment styles may fall in and out of favor. The market may not favor the fund's growth style of investing, and the fund's returns may vary considerably from other equity funds using different investment styles.

MANAGEMENT

Founders serves as investment adviser to the fund and is responsible for selecting the fund's investments and handling its day-to-day business. Founders' corporate offices are located at 2930 East Third Avenue, Denver, Colorado 80206.

Founders and its predecessor companies have operated as investment advisers since 1938. Founders also serves as investment adviser to other series funds of Dreyfus Founders Funds, Inc. (the "company"), as well as serving as adviser or sub-adviser to a number of other investment companies and private accounts. Founders is the growth specialist affiliate of The Dreyfus Corporation, a leading mutual fund complex with more than \$150 billion in its mutual fund portfolios as of December 31, 2000. Founders and Dreyfus are investment subsidiaries of Mellon Financial Corporation, a broad-based global financial services company.

In addition to managing the fund's investments, Founders also provides certain related administrative services to the fund. For these investment and administrative services, the fund pays Founders a management fee. The fund's management fee for the fiscal year ended December 31, 2000 was 0.92% of the fund's average daily net assets.

To facilitate day-to-day fund management, Founders uses a team system. Each team is composed of members of the investment department, including portfolio managers, portfolio traders and research analysts. Each individual shares ideas, information, knowledge and expertise to assist in the management of the fund. Daily decisions on security selection for the fund are made by the portfolio manager. Through participation in the team process, the manager uses the input, research, and recommendations of the rest of the management team in making purchase and sale decisions.

Tracy P. Stouffer, vice president of investments and chartered financial analyst, has been the fund's portfolio manager since July 1999. Before joining Founders, Ms. Stouffer was a vice president and portfolio manager with Federated Global, Incorporated from 1995 to July 1999.

Founders has a personal securities trading policy (the "Policy") which restricts the personal securities transactions of its employees. Its primary purpose is to ensure that personal trading by Founders employees does not disadvantage any Founders-managed fund. Founders portfolio managers and other investment personnel who comply with the Policy's preclearance and disclosure procedures may be permitted to purchase, sell or hold certain types of securities which also may be held in the fund(s) they advise.

FINANCIAL HIGHLIGHTS

The following tables describe the performance of each share class for the year ended December 31, 2000. Certain information reflects financial results for a single fund share. "Total return" shows how much your investment in the fund would have increased (or decreased) during each period,

assuming you had reinvested all dividends and distributions. The financial information has been audited by PricewaterhouseCoopers LLP whose report and the fund's financial statements are included in the fund's 2000 annual report, which is available upon request.

Your Investment

ACCOUNT POLICIES

You will need to choose a share class before making an initial investment. Selecting a class in which to invest depends on a number of factors, including the amount and intended length of your investment. In making your choice, you should weigh the impact of all potential costs over the length of your investment, including sales charges and annual fees. For example, in some instances, it can be more economical to pay an initial sales charge than to choose a class with no initial sales charge but with higher annual fees and a contingent deferred sales charge (CDSC).

Two ways to reduce sales charges

Letter of intent: if you agree to purchase at least \$50,000 of the fund's shares (or any other Dreyfus Founders and Dreyfus Premier fund sold with a sales charge) over a 13-month period, you pay a reduced sales charge as if you had invested the full amount all at once.

Right of accumulation: allows you to combine your investment in this fund with all your existing investments in any other Dreyfus Founders and Dreyfus Premier funds sold with a sales charge to determine whether you meet the threshold for reduced sales charges.

Consult the Statement of Additional Information (SAI) or your financial representative for more details.

In selecting a class, consider the following:

- **Class A shares** may be appropriate if you prefer to pay the fund's sales charge when you purchase shares rather than upon the sale of your shares, if you want to take advantage of the reduced sales charges available on larger investments, and/or if you have a longer-term investment horizon. Class A shares have no Rule 12b-1 fee.
- **Class B shares** may be appropriate if you wish to avoid a front-end sales charge, if you want to put 100% of your investment dollars to work immediately, and/or if you have a longer-term investment horizon. Class B shares convert automatically to Class A shares after the Class B shares are held for six years.
- **Class C shares** may be appropriate if you wish to avoid a front-end sales charge, if you want to put 100% of your investment dollars to work immediately, and/or if you have a shorter-term investment horizon.
- **Class R shares** are designed for eligible institutions on behalf of their clients. Individuals may not purchase these shares directly.
- **Class T shares** may be appropriate if you prefer to pay the fund's sales charge when you purchase shares rather than upon the sale of your shares, if you want to take advantage of the reduced sales charges available on larger investments, and if you have a shorter-term investment horizon.

Your financial representative can help you choose the share class that is appropriate for you.

Third-party investments

The classes of the fund offered by this prospectus are designed primarily for investors who are investing through a third party, such as a bank, broker-dealer or financial adviser, or in a 401(k) or other retirement plan. When you open a fund account with these third parties, they may impose policies, limitations and fees which are different from, or in addition to, those described in this prospectus.

Orders to buy and sell shares received by dealers by the close of trading on the NYSE and transmitted to the distributor or its designee by the close of its business day (normally 5:15 p.m. Eastern time) will be based on the NAV determined as of the close of trading on the NYSE that day.

Selling shares

You may sell (redeem) shares at any time. Your shares will be sold at the next NAV calculated after your order is accepted by the company's transfer agent or other authorized entity. Your order will be processed promptly, and you will generally receive the proceeds within a week.

To keep your CDSC as low as possible, each time you request to sell shares, the fund will first sell shares that are not subject to a CDSC, and then sell those subject to the lowest charge. The CDSC is based on the lesser of the original purchase cost or the current market value of the shares being sold, and is not charged on shares you acquired by reinvesting your dividends. There are certain instances when you may qualify to have the CDSC waived. Consult the SAI for details.

Before selling recently purchased shares, please note that if the fund has not yet collected payment for the shares you are selling, it may delay sending the proceeds until it has collected payment.

General policies

Unless you decline telephone privileges on your application, you may be responsible for any fraudulent telephone orders as long as reasonable measures were taken to verify the order.

The fund reserves the right to:

- refuse any purchase or exchange request that could adversely affect the fund or its operations, including those from any individual or group that, in the fund's view, is likely to engage in excessive trading (usually defined as more than four exchanges out of the fund within a calendar year).
- refuse any purchase or exchange request in excess of 1% of the fund's total assets.
- change or discontinue its exchange privilege, or temporarily suspend this privilege during unusual market conditions.
- change its minimum investment amounts.
- delay sending out redemption proceeds for up to seven days (generally applies only in cases of very large redemptions, excessive trading or during unusual market conditions).

The fund also reserves the right to make a "redemption in kind" — payment in portfolio securities rather than cash — if the amount you are redeeming is large enough to affect fund operations. This right may be exercised only if the amount of your redemptions exceeds the lesser of \$250,000 or 1% of the fund's net assets in any 90-day period.

Written sell orders

Some circumstances require written sell orders along with signature guarantees. These include:

- amounts of \$10,000 or more on accounts whose address has been changed within the last 30 days
- requests to send the proceeds to a different payee or address
- written sell orders of \$100,000 or more

A signature guarantee helps protect against fraud. You can obtain one from most banks or securities dealers, but not from a notary public. For joint accounts, each signature must be guaranteed. Please call **1-800-554-4611** if you have questions about obtaining a signature guarantee.

Key concepts

Net asset value (NAV): the market value of one fund share, computed by dividing the total net assets of a fund class by its shares outstanding. The fund's Class A and Class T shares are offered to the public at NAV plus a sales charge. Classes B, C, and R are offered at NAV, but Classes B and C are subject to higher annual operating expenses and a CDSC.

Market timers

Market timing or other abusive trading practices are not permitted in the fund.

Excessive, short-term market timing or other abusive trading practices may disrupt portfolio management strategies and harm fund performance. To minimize harm to the fund and its shareholders, Founders and the fund's distributor reserve the right to reject any purchase order (including exchanges) from any investor believed to have a history of abusive trading or whose trading, in Founders' or the distributor's judgment, has been or may be disruptive to the fund. In making this judgment, Founders and the distributor may consider trading done in multiple accounts under common ownership or control. The fund also reserves the right to delay delivery of your redemption proceeds up to seven days, or to honor certain redemptions with securities, rather than cash, as discussed on the previous page.

Small account policies

To offset the relatively higher costs of servicing smaller accounts, the fund charges regular accounts with balances below \$2,000 an annual fee of \$12. The fee will be imposed during the fourth quarter of each calendar year.

The fee will be waived for: any investor whose aggregate Dreyfus Founders and Dreyfus mutual fund investments total at least \$25,000; IRA accounts; accounts participating in automatic investment programs; and accounts opened through a financial institution.

If your account falls below \$500, you may be asked to increase your balance. If it is still below \$500 after 30 days, the fund may close your account and send you the proceeds to the address on record.

DISTRIBUTIONS AND TAXES

The fund intends to distribute tax-based net realized investment income and any tax-based net realized capital gains on an annual basis each December. From time to time, the fund may make distributions in addition to those described above.

Each share class will generate a different distribution because each has different expenses. Your distributions will be reinvested in the fund unless you instruct the fund otherwise. There are no fees or sales charges on reinvestments.

Fund dividends and distributions are taxable to most investors (unless your investment is in an IRA or other tax-advantaged account). The tax status of any distribution is the same regardless of how long you have been in the fund and whether you reinvest your distributions or receive them in cash. In general, distributions are federally taxable as follows:

Taxability of distributions		
Type of distribution	Tax rate for 15% bracket	Tax rate for 28% bracket or above
Income dividends	Ordinary income rate	Ordinary income rate
Short-term capital gains	Ordinary income rate	Ordinary income rate
Long-term capital gains	10%	20%

Because everyone's tax situation is unique, always consult your tax professional about federal, state and local tax consequences.

Taxes on transactions

Except for tax-advantaged accounts, any sale or exchange of fund shares may generate a tax liability. Withdrawals or distributions from tax-deferred accounts are taxable when received.

The table above also can provide a guide for potential tax liability when selling or exchanging fund shares. "Short-term capital gains" applies to fund shares sold or exchanged up to 12 months after buying them. "Long-term capital gains" applies to shares sold or exchanged after 12 months.

SERVICES FOR FUND INVESTORS

Automatic services

Buying or selling shares automatically is easy with the services described below. With each service, you may select a schedule and amount, subject to certain restrictions. You can set up most of these services with your application, or by calling your financial representative or 1-800-554-4611.

For investing

Automatic Asset Builder®	For making automatic investments from a designated bank account.
Payroll Savings Plan	For making automatic investments through payroll deduction.
Government Direct Deposit Privilege	For making automatic investments from your federal employment, Social Security or other regular federal government check.
Dividend Sweep	For automatically reinvesting the dividends and distributions from one fund into another (not available for IRAs).

For exchanging shares

Auto-Exchange Privilege	For making regular exchanges from one fund into another.
--------------------------------	--

For selling shares

Automatic Withdrawal Plan	<p>For making regular withdrawals from most funds.</p> <p>A CDSC will not be charged on Class B shares redeemed under an Automatic Withdrawal Plan ("AWP") for any fund account opened on or after July 24, 2000, or for any existing fund account that adds AWP services on or after July 24, 2000, as long as the amount of the withdrawal does not exceed the greater of:</p> <ul style="list-style-type: none"> • an annual rate of 12% of the account value at the time of the first withdrawal under the AWP; or • an annual rate of 12% of the account value at the time of any subsequent withdrawal.
----------------------------------	---

Exchange privilege

You can exchange shares worth \$500 or more (no minimum for retirement accounts) from one class of the fund into the same class of another Dreyfus Founders fund or Dreyfus Premier fund. You can also exchange Class T shares into Class A shares of certain Dreyfus Premier fixed-income funds. You can request your exchange in writing or by phone, or by contacting your financial representative. Be sure to read the current prospectus for any fund into which you are exchanging before investing. Any new account established through an exchange generally has the same privileges as your original account (as long as they are available). There is currently no fee for exchanges, although you may have to pay an additional sales charge when exchanging into any fund that has a higher sales charge.

Money market exchange privilege

As a **convenience**, the fund's shareholders may exchange all or part of their investment in the fund for shares of Dreyfus Worldwide Dollar Money Market Fund, Inc., without paying a CDSC. The Dreyfus Worldwide Dollar Money Market Fund is a money market fund advised by The Dreyfus Corporation that invests in a diversified portfolio of high quality money market instruments. **The shares of Dreyfus Worldwide Dollar Money Market Fund are not offered by this prospectus.** Please contact your financial representative or call 1-800-554-4611 to request a copy of the current Dreyfus Worldwide Dollar Money Market Fund prospectus. Please be sure to read that prospectus carefully before investing in that fund.

TeleTransfer privilege

To **move money** between your bank account and your mutual fund account with a phone call, use the TeleTransfer privilege. You can set up TeleTransfer on your account by providing bank account information and by following the instructions on your application, or by contacting your financial representative.

Reinvestment privilege

Upon written request, you can reinvest up to the number of Class A, B or T shares you redeemed within 45 days of selling them at the current share price without any sales charge. If you paid a CDSC, it will be credited back to your account. This privilege may be used only once.

Account statements

Every fund shareholder automatically receives regular account statements. You will also be sent an annual statement detailing the tax characteristics of any dividends and distributions you have received.

Brokerage allocation

Subject to the policy of seeking the best execution of orders at the most favorable prices, sales of fund shares may be considered as a factor in the selection of brokerage firms to execute fund portfolio transactions. The SAI further explains the selection of brokerage firms.

☐ \$250,000 to less than \$500,000
☐ \$500,000 to less than \$1,000,000
☐ \$1,000,000 and over

THIS APPLICATION IS NOT PART OF THE PROSPECTUS.

CONTINUED ON REVERSE

Subject to the conditions specified herein and in the Terms of Escrow below, each purchase subsequent to submission of this Letter of Intent will be made at the public offering price applicable to a single transaction of the dollar amount checked above, as described in the then-current Prospectus of the fund in which the purchase is being made.

Upon completion of the total minimum investment specified under this Letter of Intent within the afore-described 13-month period, an adjustment will be made to reflect any reduced sales load applicable to shares purchased during the 90-day period prior to submission of this Letter of Intent. Additionally, if the total purchases within the 13-month period exceed the amount specified above, an adjustment will be made to reflect further reduced sales loads applicable to such purchases. All such adjustments will be made at the conclusion of the 13-month period and in the form of additional shares credited to my account at the then-current offering price applicable to a single purchase of the dollar amount of the total purchases. The Dealer/Service Agent will be liable for the amount of any such adjustment.

I understand that the value of my holdings in the Eligible Funds as defined in Right of Accumulation below (at the offering price prevailing on the date of submission of this Letter of Intent for purposes of a reduced sales load) may be included as a credit toward completion of my Letter of Intent. (See Right of Accumulation below.)

TERMS OF ESCROW

- 1. Out of my initial purchase (or subsequent purchases if necessary), 5% of the minimum dollar amount specified in the Letter of Intent shall be held in escrow by the Transfer Agent, in shares. All dividends and any capital gain distributions on the escrowed shares will be credited to me. Escrowed shares will not be extended the Exchange Privilege.
- 2. If I complete the total minimum investment specified under this Letter of Intent within the 13-month period, the escrowed shares will be promptly released to me.
- 3. If my total purchases pursuant to this Letter of Intent are less than the amount specified by me as my intended aggregate purchases, I will remit to the Transfer Agent an amount equal to the difference between the dollar amount of sales loads actually paid by me and the amount of sales loads which I would have paid if my total purchases had been made at a single time. If I do not pay such difference in sales loads within twenty (20) days after being notified, the Transfer Agent will redeem the number of escrowed shares necessary to obtain the difference in sales loads. Full and fractional shares remaining after this redemption will be released to me.
- 4. I hereby irrevocably constitute and appoint the Transfer Agent my attorney-in-fact to surrender for redemption any or all escrowed shares.

This Letter of Intent must be received by the Transfer Agent to be considered effective. All future purchases placed directly with Dreyfus Service Corporation must refer to this Statement of Intention.

B. RIGHT OF ACCUMULATION (For Class A and Class T shares)

Please Note: Purchases of any shares in this fund or any other Dreyfus Founders or Dreyfus Premier fund sold with a sales load (which you already own) qualify towards "Right of Accumulation" for purchases of Class A and Class T shares.

Shares may be purchased at the offering price applicable to the total of (a) the dollar amount then being purchased plus (b) an amount equal to the value of the combined present holdings of the purchaser, his or her spouse, and their minor children of shares of funds in the Dreyfus Founders and Dreyfus Family of Funds and qualified holdings of certain other funds, as described in the Prospectus ("Eligible Funds"). In order for this cumulative quantity discount to be made available, the investor must identify all fund accounts to be considered as qualified holdings. All accounts are subject to verification.

If privileges have been selected, all registered owners must sign below, including Corporations, Partnerships and Trusts.

The undersigned warrant(s) that I (we) have full authority and, if a natural person, am (are) of legal age to purchase shares pursuant to this Application, have received a current fund Prospectus and agree to be bound by its terms, and that all representations accompanying this Application pursuant to the regulatory authority of any State, are true. I (We) agree that the Transfer Agent, the fund in which I (we) am (are) investing, Founders Asset Management LLC, The Dreyfus Corporation or any subsidiary or their officers, directors, trustees or employees will not be liable for any loss, expense or cost for acting upon any instructions or inquiries believed genuine. In connection with any applicable telephone privileges, the fund will require its Transfer Agent to employ reasonable procedures, such as requiring a form of personal identification, to confirm that instructions relayed by telephone are genuine and, if it does not follow such procedures, the fund or the Transfer Agent may be liable for any losses due to unauthorized or fraudulent instructions. Neither the fund nor its Transfer Agent will be liable for following telephone instructions reasonably believed to be genuine.

I (we) acknowledge that mutual fund shares are not FDIC-insured. They are not bank deposits, bank obligations or bank-guaranteed. They pose investment risks, including the possible loss of principal.
